# How to Set Up The New Google Maps

## 1. SET UP A GOOGLE PROJECT

If you already have a Google Project set up you can skip straight to adding the billing information.
(This assumes you have a Google Account set up, which you should have if you have already added the Google Map API Key to your website)

## 2. ADD BILLING INFORMATION

Go to:
https://cloud.google.com/maps-platform/#get-started

Click 'Get Started'

In the dialogue box, tick the **Maps** box.

---

📍 Enable Google Maps Platform

To enable APIs or set up billing, we'll guide you through a few tasks:

1. **Pick product(s) below**
2. Select a project
3. Set up your billing

☐ **Maps**
Build customized map experiences that bring the real world to your users.

☐ **Routes**
Give your users the best way to get from A to Z.

☐ **Places**
Help users discover the world with rich details.

CANCEL          CONTINUE

---
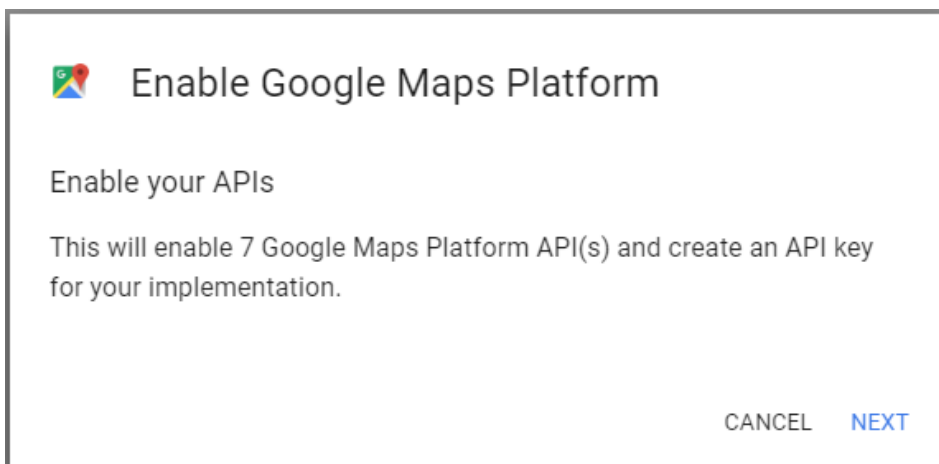

Select your project from the dropdown menu.

In the new dialogue box, click 'Create Billing Account'.

Name your billing account and click 'Continue'.

Fill out your billing and payment details

You should then see this screen:

Click 'Next'.

You should now see your new Key, this will be a string of letters and numbers.

Copy this Key to your clipboard (highlight, right click, copy).

### 3. ADD YOUR NEW KEY TO YOUR INTERGAGE CMS

Go to the CMS of your website.

Go to: Setup > Site Settings > **Google Maps API Key**

Paste your new API Key into Google Maps API Key box.

Scroll to the bottom and click 'Confirm Edits'.

Run a full site update to set the changes live.
